

# MINING NOTES OF INTEREST

## New Strike Averages \$120 a Ton

John W. Langley, formerly of the people are interested with Mr. Langley-Trimble Brokerage company in this property, which has and one of the best known mining been named the Monroe Extension. men in the west, is meeting with the property is now down to a good great success in his mining ventures depth and has encountered a five- in the Chafey district. He recently foot body of ore from which returns acquired possession of a mine there, have been received averaging \$120 which the experts now term as thea ton. The development work is be- second mine in that camp, and is sit-ing prosecuted and it is the opin- uated next to the famous Black Hole that the mine will be one of the big- property of E. S. Chafey. Several lo-gest producers in that district.

## STRIKE \$106 TO THE TON

RHYOLITE, Jan. 21.—An enrichment in the big Home- stake vein has been uncovered within the last few days on the 440-foot level. There is a streak of reddish black ore about three feet in width that is of a dif- ferent character than the gen- eral run of the ore. Mr. Cado- gon took three samples from the streak, getting returns of \$28.40, \$50 and \$106 to the ton. Drifting is now in progress on this streak. Another cleanup at the mill will be made in a few days.

J. S. Austin, president of the Ton- opah Mining company, accompanied by Mrs. Austin, left yesterday for a visit to Los Angeles and vicinity.

Job printing—the kind that builds up your business—is the sort you can depend on getting, if you have it ex- ecuted at the Bonanza job rooms.

## LEASING FEVER BREAKS OUT AT PIONEER

RHYOLITE, Jan. 21.—The leasing fever is epidemic at Pioneer. Fully thirty applications for leases have been received by the several com- panies controlled by R. F. Tobin and J. R. Bryan, including the Bullfrog Pioneer Gold Mines company, the North Extension company, the Los Angeles Bullfrog Gold Mining com- pany, the K. K., and the Valley View. Perhaps one-half of the applications will be considered favorably by these parties, the plan being to grant leases to responsible parties only.

It is predicted that within a short time a large number of leasing out- fits will be at work all around the Pioneer strike, and it is likely that leases will be given on other prop- erties than those noted above.

Brodie and Bonham have started work on the Bimetallie No. 1 claim of the Pioneer estate, and are sink- ing a shaft on a very promising gold showing.

Ed Hekelrath has started work on the lease granted to himself, Charles Ryan and John A. Moffat. This lease is on the Bluff claim of the Valley View estate.

Prospect work on the K. K. claim shows values of \$9.60 in gold, and it is likely that this ground will be worked by leasers.

E. S. Giles, general manager for

the Puritan company, has two appli- cations for leases, both of which will probably be granted.

Rhyolite parties have asked for a lease on the Jolly Jane claim, which joins the Jim Dandy on the north, and they are ready to start work as soon as the lease is signed.

The Los Angeles Bullfrog com- pany, which owns some close-in ground near the Pioneer, has received three applications for leases, which will be acted upon shortly.

## 5000 COAL MINERS MAY GO OUT ON LONG STRIKE

WINNIPEG (Man.), Jan. 21.—There is great unrest among the coal miners engaged in the southern Al- berta and British Columbia mines, and before the renewal of the two years' agreement on April 1, 5000 men may go on strike.

The reason for the probable coal- mine strike is the expiration on March 31 of the two-years' agree- ment signed by the miners on May 5, 1907. The men refuse to continue under the terms of the agreement and have asked for a rate of increase which the companies involved feel that they cannot pay under the exist- ing contracts.

## ST. MARK'S GUILD

The regular meeting of St. Mark's guild will be held in the guild room on Friday, January 22, at 2:30 p. m., when there will be a sale of hand painted china and other goods left over from the bazaar. All members and friends are cordially invited. 1-21-2t K. KIDD, Sec.

## ROSEBUD DIST. IS TAKING ON NEW ACTIVITY

George A. Phillips and H. S. Pet- titt, two operators from the Rosebud district, who were in Lovelock this week, report that camp as being un- usually active. There is quite a num- ber of men in the camp and as a rule all the assessment work for 1908 was done and only in a few instances did claims go by default, says the Re- view.

The most active property in the camp today, the visitors reported, is the Dreamland lease. Three shifts are sinking while one shift is stoping ore. The ledge on the Dreamland lease has been opened to a depth om 140 feet and values in silver are being obtained running all the way from fifty-to 6000 ounces. The gold values average about \$20 a ton.

Calvin brothers, who are operating the Gambler group, cut a fine ledge at a depth of eighty-seven feet about two weeks ago. The shaft in this property is now 100 feet deep and drifting is in progress. Some excel- lent values are being found and a shipment is being taken out and will be forwarded soon.

The Rabbit Foot group, compris- ing four claims, is also another prom- ising property and has the earmarks of becoming a big producer. Several prospect shafts have been sunk and numerous ledges opened up. On one of the claims a shaft twenty-three feet deep was sunk and the values in the bottom show \$40 to \$100 in gold. F. H. Gunnell of Lovelock is the principal owner of the Rabbit Foot group.—Humboldt Star.

The Bonanza has a complete bind- ery in operation.

## HOTEL ARRIVALS

**MIZPAH HOTEL.**
